

# TITAC HT-11P

HAMMERTACKER FOR COMPOSITE STAPLES

**Titac HT-11P is a robust hammer tacker for high frequency use**

Example use cases: pallet covering, lumber wrapping, log tags, moisture barriers or roofing

## Designed for TITAC composite staples

This is an excellent tool when speed and power is the main objective!

- The ergonomic rubber handle provides a good grip and ensures that the stapler won't slip out of you hand.
- HT-11P has a well balanced weight distribution which makes it easy to handle.
- Bottom loaded and without loose parts, the HT-11P refill process is quick and easy.

The robust construction of HT-11P comes from many years of technical expertise. No compromise has been made in selecting best materials. HT-11P is designed in Sweden for heavy use.
